EDUCATION

Concord University   Aug 2018 – present
Major : Computer Science   Athens, WV
   Minor : Psychology
   Programming Coursework: Intro to Computer Science(Python), Software Engineering.

SOFTWARE PROJECTS

Victor Universe
- Designed and developed my portfolio website where I put my recent software projects and art using HTML, CSS and Javascript.
- Made use of VANTA.js and THREE.js to create an animated, interactive website background.
- Implemented Gzip file compression to optimize website load time, performance and speed.
- for more visit www.victoruniverse.com 🔗

Elon Automobiles
- Developed a static landing page for a fictional car company, Elon Automobiles, using Bootstrap front-end framework, HTML, CSS and Javascript.
- Implemented Gzip file compression to optimize website load time, performance and speed.
- Inspired by Tesla's website design.
- for more visit elonautomobiles.netlify.com 🔗

Drive Smart
- Designed, constructed and deployed a drivers' learning android application, Drive Smart, with a team of 4 other students in my software engineering class (CS 253) , using Github and Android Studio.
- Made a presentation and design overview, as the project manager during phase 3 of the apps' software development process.

WORK & VOLUNTEERING

Citizen's Action Project: Athens Hiking and Biking Pathways   Oct 2019 – present
-Project Assistant & Social Media Manager
- I assist the project manager in completing the community outreach project to create a biking and hiking trail for the community.
- I designed the Athens Hiking and Biking Pathway's banner , brochure and logo using photoshop. I've also grown it's facebook page by over 100+ followers.

Concord Child Development Center   Mar 2019 – present
Child Care Assistant
- I co-operate with my supervisors and colleagues to provide supervision, safety and a clean environment to toddlers at the daycare.
